ELSEVIER

Chemical Geology 115 (1994) 339–340

CHEMICAL GEOLOGY
INCLUDING ISOTOPE GEOSCIENCE

Contents Volume 115, 1994

VOL. 115, NO. 1/2

Letter Section

The Earth's missing xenon: A combination of early degassing and of rare gas loss from the atmosphere
I.N. Tolstikhin and R.K. O'Nions 1

Research Papers

Source compositions and melting processes in the Society and Austral plumes (South Pacific Ocean): Element and isotope (Sr, Nd, Pb, Th) geochemistry
C. Hémond, C.W. Devey and C. Chauvel 7

The aqueous geochemistry of the rare-earth elements and yttrium, 4. Monazite solubility and REE mobility in exhalative massive sulfide-depositing environments
S.A. Wood and A.E. Williams-Jones 47

Analysis of geological materials for gold, platinum and palladium at low ppb levels by fire assay–ICP mass spectrometry
G.E.M. Hall and J.C. Pelchat 61

Geochemical characteristics of the recent sediments from the Sea of Marmara
M.N. Bodur and M. Ergin 73

Geochemical study of a crater lake: Pavin Lake, France — Identification, location and quantification of the chemical reactions in the lake
G. Michard, E. Viollier, D. Jézéquel and G. Sarazin 103

Formation of hydrothermal carbonate in Lake Tanganyika, East-Central Africa
P. Stoffers and R. Botz 117

Isotope Geoscience Section

Research Papers

Pb–Pb and U–Pb geochronology of carbonate rocks: an assessment
B. Jahn and H. Cuvellier 125

A laser microprobe, mass spectrometric study of Ar, Kr, K, Cl and Br in an "unconformity garnet", associated fluid inclusions, staurolite and micas from Vermont, U.S.A.
J.J. Irwin 153

Book Review

Geology of the Otago Schist and Adjacent Rocks, Scale 1:500,000, by N. Mortimer — S.R. Taylor 171

Announcement 172

VOL. 115, NO. 3/4

Research Papers

Crust and mantle contributions to granite genesis — An example from the Variscan batholith of Corsica, France, studied by trace-element and Nd–Sr–O-isotope systematics
A. Cocherie, Ph. Rossi, A.M. Fouillac and Ph. Vidal 173

0009-2541/94/$07.00 © 1994 Elsevier Science B.V. All rights reserved
SSDI 0009-2541

Cl, Br and I in igneous standard rocks
T. Shinonaga, M. Ebihara, H. Nakahara, K. Tomura and K.G. Heumann 213
Experimental determination of the two-phase (liquid and vapour) region in water–alkali chloride binary systems at 500° and 600°C using synthetic fluid inclusions
M. Dubois, A. Weisbrod and A. Shtuka 227
Low-temperature alteration of the upper oceanic crust and the alkalinity budget of seawater
A.J. Spivack and H. Staudigel 239
A geochemical study of solid bitumen in an Eocene epithermal deposit; Owen Lake, British Columbia, Canada
M. Mastalerz, M.L. Thomson, A. Stankiewicz, R.M. Bustin and A.J. Sinclair 249

Review Paper
Porosity enhancement during clastic diagenesis as a result of aqueous metal-carboxylate complexation: Experimental studies
J.B. Fein 263

Isotope Geoscience Section

Research Papers
A comprehensive U–Pb, Sm–Nd, Rb–Sr and ^{40}Ar–^{39}Ar geochronological study on Guidong Granodiorite, southeast China: Records of multiple tectonothermal events in a single pluton
X. Li 283
$^{40}Ar/^{39}Ar$ analysis of K-feldspars from Cretaceous granitic rocks in Japan: Significance of perthitization in Ar loss
K. Shibata, I. Kaneoka and S. Uchiumi 297
Variabilité spatiale de la composition isotopique de l'eau (^{18}O, ^{2}H) au sein des organes des plantes aériennes: 1. Approche en conditions contrôlées (Spatial variation of the isotopic composition of water (^{18}O, ^{2}H) in organs of aerophytic plants: 1. Assessment under laboratory conditions)
T. Bariac, J. Gonzalez-Dunia, F. Tardieu, D. Tessier and A. Mariotti 307
Variabilité spatio-temporelle de la composition isotopique de l'eau (^{18}O, ^{2}H) dans le continuum sol–plante–atmosphère. 2. Approche en conditions naturelles (Spatial variation of the isotopic composition of water (^{18}O, ^{2}H) in the soil–plant–atmosphere system. 2. Assessment under field conditions)
T. Bariac, J. Gonzalez-Dunia, N. Katerji, O. Béthenod, J.M. Bertolini and A. Mariotti 317

Book Reviews
Introduction to the Petrology of Soils and Chemical Weathering, by D. Nahon — Y. Tardy 335
Soil Gas and Related Methods for Natural Resources Exploration, by R.W. Klusman — G.M. Reimer 336

Announcement 338

Contents Volume 115, 1994 340
